

“EDINA – Energy-efficient development of special revitalisation zones and urban areas”

Program of Workshop Serie

3 Days Workshop Serie		
9.00 – 13.45	Kick-Off Workshop (12 th February 2021)	Presenter
9.00 – 9.10	Welcoming	IRMiR
9.10 – 9.30	What are we here for: The EDINA project (approach, measures, partners) – roadmap and profiles	
9.30 – 12.00	International Perspective (In English with translation in Polish)	Insar/FPE
9.30 – 10.00	The integrated perspective of energy efficiency	Insar
10.00 – 10.15	Poland: local context of energy efficiency improvement in Poland	FPE
10.15 – 10.30	Questions and discussions	
30 min	Break	
11.00 – 12.00	Challenges of energy efficient refurbishment of urban areas. <i>Including break and interactive exchange</i>	Insar
12.00 – 13.30	Polish Perspective (In Polish)	IRMiR/FPE
12.00 – 13.30	Workshop in two rounds with short introduction: Bridging gaps: What kind of inspiration do Polish cities need to foster improvement of energy efficiency in revitalization areas in Poland?	
30 min	1 st Round – Similarity of Challenges DE/PL	
15 min	Summary presented in the big group	
30 min	2 nd Round – Individual Challenges	
15 min	Summary presented in the big group	
13.30 – 13.45	The end: Roadmap: what has been done and what has to be done?	

1

Supported by:

9.00 – 14.45	2nd Workshop – Focus: Solutions for urban revitalisation area (26th February 2021)	
9.00-11.30	International Perspective (In English with translation to Polish)	
	<ol style="list-style-type: none"> 1. Integrated aspects: public spaces 2. Revitalization of historic districts – city centres / old industrial sites, upgrading of public spaces, 3. Identification and diversification of functions and activities 4. Demarcation of Urban Areas 5. Communication and participations 	Insar
11.30 – 12.00	German experiences in financing energy-efficient revitalisation of urban areas	Dr. Kay Pöhler, KfW
30 min	Break	
12.30-14.30	Polish Perspective (In Polish)	
12.30 – 14.30	Workshop in two rounds Toolkit: What do cities with Special Revitalization Zones advise other cities in Poland where SSR is still being planned?	
45 min	1 st Round – How to define the rules for granting subsidies to promote private refurbishments in Special Regeneration Zones?	IRMiR
15 min	Summary presented in the big group	
45 min	2 nd Round – How to define the rules for granting subsidies to promote the improvement of energy efficiency of refurbished buildings in Special Regeneration Zones?	
15 min	Summary presented in the big group	
14.30 – 14.45	The end: Roadmap, What has been done and what has to be done?	
9.00 – 15.00	3^d Workshop – Focus: Improvement of energy efficiency of buildings (12th March 2021)	
	Polish Perspective (in Polish)	
9.00 – 10.00	The Presentation & Discussion Energy efficiency introduction (<i>quick scan through Polish typical challenges with remarks on which German solutions are adequate and compliant with Polish regulations, e. g. energy audit</i>)	FPE
10.00 – 11.00	The Talk Benefits from improving energy efficiency – rational for links with revitalization	
30 min	Break	

11.30 – 12.00	The Presentation & Questions The perspective of a heating company	FPE or heating service provider
12.00 – 14.30	The Presentation & Workshops	
12.00 – 12.30	Examples of calculations and rankings of effects in the assessment of energy efficiency improvement	FPE
45 min	1 st Workshop Round – What should be minimum energy efficiency for every project in Special Revitalization Zones? How should be defined the bonus for additional energy efficient solutions in the restored building?	
15 min	Summary presented in the big group	
45 min	2 nd Round – How to match different sources of funding?	IRMiR/FPE
15 min	Summary presented in the big group	
14.30 – 14.45	The end: Summary of the Roadmap
